

CONTENTS

ANIMAL WELL-BEING AND BEHAVIOR

- Anti-predator behavior in pure and hybrid red-legged partridges
 S. G. Dávila, O. T. Cuenca, M. G. Gil, O. A. Toledano-Díaz, C. Castaño,
 J. Santiago-Moreno, and J. L. Campo..... 3085
- Does light intensity affect the behavior, welfare, performance, meat quality, amino acid profile,
 and egg quality of Japanese quails?
 Mohammed A. F. Nasr, Hesham Mohammed, Rania A. Hassan, Ayman A. Swelum,
 and Islam M. Saadeldin..... 3093
- Effects of different claw-shortening devices on claw condition, fear, stress, and feather coverage
 of layer breeders
 Haipeng Shi, Baoming Li, Qin Tong, and Weichao Zheng..... 3103

GENETICS AND GENOMICS

- A selection method of chickens with blue-eggshell and dwarf traits by molecular marker-assisted selection
 H. X. Cui, Q. C. Shen, M. Q. Zheng, Y. C. Su, R. C. Cai, Y. Yu, X. R. Yang, Z. W. Chen,
 J. Wen, and G. P. Zhao..... 3114
- Dual-purpose production of genetically different chicken crossbreeds in Ethiopia. 1. Parent stocks' feed
 intake, body weight, and reproductive performance
 Dawud Ibrahim, Gebeyehu Goshu, Wondmenh Esatu, and Avigdor Cahaner..... 3119

IMMUNOLOGY, HEALTH AND DISEASE

- Molecular characterization of the *meg* gene of Marek's disease viruses detected in unvaccinated backyard
 chickens reveals the circulation of low- and high-virulence strains
 Giulia Mescolini, Caterina Lupini, Viviana Felice, Alessandro Guerrini, Flavio Silveira,
 Mattia Cecchinato, and Elena Catelli..... 3130
- Protocatechuic acid improved growth performance, meat quality, and intestinal health of Chinese
 yellow-feathered broilers
 Yibing Wang, Yuanyuan Wang, Baikui Wang, Xiaoqiang Mei, Shouqun Jiang,
 and Weifen Li..... 3138
- Field evaluation of maternal antibody transfer from breeder turkey hens to egg yolks, egg whites,
 and poults
 Joanna Kowalczyk, Marcin Śmiątek, Bartłomiej Tykałowski, Daria Dziejulska,
 Tomasz Stenzel, and Andrzej Koncicki..... 3150
- Tetramethylpyrazine supplementation reduced *Salmonella* Typhimurium load and inflammatory
 response in broilers
 N. Liu, L. Lin, J. Q. Wang, F. K. Zhang, and J. P. Wang..... 3158
- The evaluation of potential immunotoxicity induced by environmental pollutant ammonia in broilers
 Yang An, Houjuan Xing, Yu Zhang, Pengcheng Jia, Xianhong Gu, and Xiaohua Teng..... 3165
- Viable *Eimeria* oocysts in poultry house litter at the time of chick placement
 M. C. Jenkins, C. C. Parker, C. N. O'Brien, and D. Ritter..... 3176

METABOLISM AND NUTRITION

- Can dietary zinc diminish the impact of necrotic enteritis on growth performance of broiler chickens
 by modulating the intestinal immune-system and microbiota?
 C. Bortoluzzi, B. S. Vieira, B. Lumpkins, G. F. Mathis, W. D. King, D. Graugnard,
 K. A. Dawson, and T. J. Applegate..... 3181
- Effects of in ovo injection of L-histidine on hatch performance and post-hatch development in domestic
 pigeons (*Columba livia*)
 Q. Q. Xu, X. Y. Zhang, X. T. Zou, and X. Y. Dong..... 3194

- Effect of dietary melamine concentrations on growth performance, excreta characteristics, plasma measurements, and melamine residue in the tissue of male and female broiler chickens
J. H. Kim, H. S. Choi, D. Goo, G. H. Park, G. P. Han, J. B. Delos Reyes, and D. Y. Kil..... 3204
- Effects of *Yucca schidigera*-derived saponin supplementation during a mixed *Eimeria* challenge in broilers
M. L. Oelschlager, M. S. A. Rasheed, B. N. Smith, M. J. Rincker, and R. N. Dilger 3212
- Attenuating effects of guanidinoacetic acid on preslaughter transport-induced muscle energy expenditure and rapid glycolysis of broilers
L. Zhang, J. L. Li, X. F. Wang, X. D. Zhu, F. Gao, and G. H. Zhou..... 3223
- Application of adaptive neuro-fuzzy inference systems to estimate digestible critical amino acid requirements in young broiler chicks
R. Akbari Moghaddam Kakhki, Z. Anwar, R. Bakhshalinejad, A. Golian, and J. France 3233
- Evaluation of encapsulated sodium butyrate with varying releasing times on growth performance and necrotic enteritis mitigation in broilers
J. D. Liu, B. Lumpkins, G. Mathis, S. M. Williams, and J. Fowler 3240

MOLECULAR AND CELLULAR BIOLOGY

- The metabolic characteristics of susceptibility to wooden breast disease in chickens with high feed efficiency
Behnam Abasht, Nan Zhou, William R. Lee, Zhu Zhuo, and Elisa Peripolli..... 3246
- Exploration of the temporal-spatial expression pattern and DNA methylation-related regulation of the duck telomerase reverse transcriptase gene
Taoyan Yuan, Wanqiu Zhao, Yifan Niu, Yan Fu, Lizhi Lu, and Dong Niu 3257

PHYSIOLOGY AND REPRODUCTION

- Early posthatch thermal stress causes long-term adverse effects on pectoralis muscle development in broilers
Tomer Patael, Yogev Piestun, Arad Soffer, Sharon Mordechay, Shlomo Yahav, Sandra G. Velleman, and Orna Halevy..... 3268
- Comparison of whole embryonic development in the duck (*Anas platyrhynchos*) and goose (*Anser cygnoides*) with the chicken (*Gallus gallus*)
Shanshan Li, Shibin Bai, Xia Qin, Junpeng Zhang, David M. Irwin, Shuyi Zhang, and Zhe Wang..... 3278
- Sperm characteristics of Chukar partridge (*Alectoris chukar*) breeders as affected by the addition of calcitriol to the semen extender
P. Goodarzi, A. Akhlaghi, M. J. Zamiri, M. R. Jafarzadeh Shirazi, A. A. Akhlaghi, M. Habibi, H. Daryabari, F. Saemi, and E. D. Peebles 3292
- A mixture of daidzein and Chinese herbs increases egg production and eggshell strength as well as blood plasma Ca, P, antioxidative enzymes, and luteinizing hormone levels in post-peak, brown laying hens
Y. Q. Xiao, D. Shao, Z. W. Sheng, Q. Wang, and S. R. Shi..... 3298

PROCESSING AND PRODUCTS

- Dietary choline supplementation regulated lipid profiles of egg yolk, blood, and liver and improved hepatic redox status in laying hens
X. F. Dong, Q. H. Zhai, and J. M. Tong..... 3304
- In vivo digestion characteristics of protein sources fed to broilers
D. D. S. L. Bryan, D. A. Abbott, A. G. Van Kessel, and H. L. Classen 3313
- Effects of the incorporation of β -glucans in chicken breast during storage
Sandra M. Vasquez Mejía, Alicia de Francisco, Raceli Sandrin, Tiago da Silva, and Benjamin M. Bohrer..... 3326
- Quality and oxidative stability of eggs laid by hens fed marigold extract supplemented diet
Manuela Grčević, Zlata Kralik, Gordana Kralik, Dalida Galović, Žarko Radišić, and Danica Hanžek 3338
- Suitability of layer-type male chicks for capon production
Daria Murawska, Michał Gesek, and Dorota Witkowska..... 3345

ASSOCIATION NOTES

- Positions Available..... 3352
