LETTER TO THE EDITOR

Editorial: Launching a new *Reviews* section in *Poultry Science*

Steven C. Ricke 1

ANIMAL WELL-BEING AND BEHAVIOR

Problem behaviors in adult laying hens – identifying risk factors during rearing and egg production

Margrethe Brantsæter, Janicke Nordgreen, Tone B. Hansen, Karianne Muri,
Ane Nødtvedt, Randi O. Moe, and Andrew M. Janczak 2

GENETICS AND GENOMICS

Construction of multiple linear regression models using blood biomarkers for selecting against abdominal fat traits in broilers

J. Q. Dong, X. Y. Zhang, S. Z. Wang, X. F. Jiang, K. Zhang, G. W. Ma, M. Q. Wu,
H. Li, and H. Zhang 17

IMMUNOLOGY, HEALTH, AND DISEASE

Characterization of *Ornithobacterium rhinotracheale* from commercial layer chickens in eastern Japan

D. V. Umali, K. Shirota, K. Sasai, and H. Katoh 24

Effects of dietary vitamin C, vitamin E, and alpha-lipoic acid supplementation on the antioxidant defense system and immune-related gene expression in broilers exposed to oxidative stress by dexamethasone

H. K. El-Senousey, B. Chen, J. Y. Wang, A. M. Atta, F. R. Mohamed, and Q. H. Nie 30

MANAGEMENT AND PRODUCTION

Necrotic enteritis challenge and high dietary sodium level affect odorant composition or emission from broilers

Nishchal K. Sharma, Mingan Choct, Shu-Biao Wu, and Robert A. Swick 39

Effect of production system (barn and free range) and slaughter age on some production traits of guinea fowl

U. S. Yamak, M. Sarica, M. A. Boz, and A. Ucar 47

Effects of direct-fed microorganisms and enzyme blend co-administration on intestinal bacteria in broilers fed diets with or without antibiotics

T. E. Askelson, C. A. Flores, S. L. Dunn-Horrocks, Y. Dersjant-Li, K. Gibbs, A. Awati,
J. T. Lee, and T. Duong 54

Evaluation of the addition of organic acids in the feed and/or water for broilers and the subsequent recovery of *Salmonella* Typhimurium from litter and ceca

D. V. Bourassa, K. M. Wilson, C. R. Ritz, B. K. Kiepper, and R. J. Buhr 64

Scoring biosecurity in European conventional broiler production

T. Van Limbergen, J. Dewulf, M. Klinckenberg, R. Ducatelle, P. Gelaude, J. Méndez,
K. Heinola, S. Papisolomontos, P. Szeleszczuk, and D. Maes, on behalf of the
PROHEALTH consortium 74

METABOLISM AND NUTRITION

A meta-analysis on the effect of canthaxanthin on egg production in brown egg layers

M. Umar Faruk, F. F. Roos, and F. Cisneros-Gonzalez 84

Effect of different split-feeding treatments on performance, egg quality, and bone quality of individually housed aged laying hens

A. Molnár, L. Maertens, B. Ampe, J. Buyse, J. Zoons, and E. Delezie 88

Effects of supplemental L-methionine on growth performance and redox status of turkey poult compared with the use of DL-methionine	
I. Park, T. Pasquetti, R. D. Malheiros, P. R. Ferket, and S. W. Kim.....	102
Effects of in ovo feeding of cationic amino acids on hatchability, hatch weights, and organ developments in domestic pigeon squabs (<i>Columba livia</i>)	
X. Y. Zhang, L. L. Li, L. P. Miao, N. N. Zhang, and X. T. Zou.....	110
Effects of dietary <i>Lactobacillus rhamnosus</i> CF supplementation on growth, meat quality, and microenvironment in specific pathogen-free chickens	
F. Chen, S. S. Gao, L. Q. Zhu, S. Y. Qin, and H. L. Qiu.....	118
Apparent metabolizable energy of by-products from the soybean oil industry for broilers: acidulated soapstock, glycerin, lecithin, and their mixture	
L. Borsatti, S. L. Vieira, C. Stefanello, L. Kindlein, E. O. Oviedo-Rondón, and C. R. Angel.....	124
Investigating the effect of dietary calcium levels on ileal endogenous amino acid losses and standardized ileal amino acid digestibility in broilers and laying hens	
S. A. Adedokun, A. J. Pescatore, M. J. Ford, T. Ao, and J. P. Jacob.....	131
In ovo feeding of L-arginine alters energy metabolism in post-hatch broilers	
L. L. Yu, T. Gao, M. M. Zhao, P. A. Lv, L. Zhang, J. L. Li, Y. Jiang, F. Gao, and G. H. Zhou.....	140
The interactive effect of dietary n-6: n-3 fatty acid ratio and vitamin E level on tissue lipid peroxidation, DNA damage in intestinal epithelial cells, and gut morphology in chickens of different ages	
P. Konieczka, M. Barszcz, M. Choct, and S. Smulikowska.....	149
Performance and serum biochemical profile of Japanese quail supplemented with silymarin and contaminated with aflatoxin B ₁	
M. I. Sakamoto, A. E. Murakami, A. M. Fernandes, I. C. Ospina-Rojas, K. C. Nunes, and A. K. Hirata.....	159
Butyrate presence in distinct gastrointestinal tract segments modifies differentially digestive processes and amino acid bioavailability in young broiler chickens	
P. C. A. Moquet, S. A. Salami, L. Onrust, W. H. Hendriks, and R. P. Kwakkel.....	167
Effects of dietary threonine and immune stress on growth performance, carcass trait, serum immune parameters, and intestinal muc2 and NF- κ b gene expression in Pekin ducks from hatch to 21 days	
Y. Bi, X. M. Nan, S. S. Zheng, L. S. Jiang, and B. H. Xiong.....	177
Phosphorus bioavailability in increased-protein, reduced-fiber canola meal, conventional canola meal, and soybean meal fed to crossbred chicks	
C. D. Hanna, C. K. Foran, P. L. Utterback, H. H. Stein, and C. M. Parsons.....	188
Effects of dietary supplemental bile acids on performance, carcass characteristics, serum lipid metabolites and intestinal enzyme activities of broiler chickens	
Wenqing Lai, Weigang Huang, Bing Dong, Aizhi Cao, Wenjuan Zhang, Juntao Li, Hui Wu, and Liying Zhang.....	196
Influence of different yeast cell wall preparations and their components on performance and immune and metabolic pathways in <i>Clostridium perfringens</i> -challenged broiler chicks	
Mohammed M. Hashim, Ryan J. Arsenault, James A. Byrd, Michael H. Kogut, Morouj Al-Ajeeli, and Christopher A. Bailey.....	203
Effects of a high level of phytase on broiler performance, bone ash, phosphorus utilization, and phytate dephosphorylation to inositol	
A. E. Gautier, C. L. Walk, and R. N. Dilger.....	211
High stocking density alters bone-related calcium and phosphorus metabolism by changing intestinal absorption in broiler chickens	
Z. W. Sun, Q. H. Fan, X. X. Wang, Y. M. Guo, H. J. Wang, and X. Dong.....	219
A sinusoidal function and the Nelder-Mead simplex algorithm applied to growth data from broiler chickens	
H. Darmani Kuhi, A. Shabanpour, A. Mohit, S. Falahi, and J. France.....	227
Screening lactic acid bacteria to manufacture two-stage fermented feed and pelleting to investigate the feeding effect on broilers	
Ruei Han Yeh, Chia Wen Hsieh, and Kuo Lung Chen.....	236
Effects of dietary Mn-methionine supplementation on the egg quality of laying hens	
L. L. Li, N. N. Zhang, Y. J. Gong, M. Y. Zhou, H. Q. Zhan, and X. T. Zou.....	247

- Influence of emulsifier blends having different hydrophilic-lipophilic balance value on growth performance, nutrient digestibility, serum lipid profiles, and meat quality of broilers
 S. D. Upadhaya, Ju Seong Lee, Kyoung Jin Jung, and I. H. Kim.....255

Research Notes

- Interactions of dietary protein and threonine on growth performance in Pekin ducklings from 1 to 14 days of age
 Y. Jiang, Y. W. Zhu, M. Xie, J. Tang, Z. G. Wen, S. Y. Qiao, and S. S. Hou..... 262
- Prediction model for manure zinc excretion in laying hens
 K. M. Martin, N. Vargas-Jurado, and S. E. Purdum 267

MICROBIOLOGY AND FOOD SAFETY

- Comparison of the loads and antibiotic-resistance profiles of *Enterococcus* species from conventional and organic chicken carcasses in South Korea
 Y.-J. Kim, J.-H. Park, and K.-H. Seo 271
- Comparison of prevalence, phenotype, and antimicrobial resistance of *Salmonella* serovars isolated from turkeys in Taiwan
 J.-C. Yeh, C.-L. Chen, C.-S. Chiou, D.-Y. Lo, J.-C. Cheng, and H.-C. Kuo 279

Research Note

- Improvement of Bolton broth by supplementation with tazobactam for the isolation of *Campylobacter* from chicken rinses
 Jung-Wan Chon, Young-Ji Kim, Farzana Rashid, Kidon Sung, Saeed Khan, Hyunsook Kim, and Kun-Ho Seo..... 289

MOLECULAR AND CELLULAR BIOLOGY

- Molecular cloning and functional analysis of peafowl (*Pavo cristatus*) Toll-like receptor 7
 H. Song, M. Zhang, W. Gao, L. Wu, and G. Li 294
- Evaluation of 793/B-like and Mass-like vaccine strain kinetics in experimental and field conditions by real-time RT-PCR quantification
 C. M. Tucciarone, G. Franzo, G. Berto, M. Drigo, G. Ramon, K. C. Koutoulis, E. Catelli, and M. Cecchinato 303

Research Note

- Differential mRNA expression of nutrient transporters in male and female chickens
 N. A. Kaminski and E. A. Wong..... 313

PHYSIOLOGY AND REPRODUCTION

- Effects of *Deinococcus* spp. supplement on egg quality traits in laying hens
 I-Chen Li, Szu-Yin Wu, Jenn-fa Liou, Hsiao-Hui Liu, Jiau-hua Chen, and Chin-Chu Chen.....319
- Eggshell temperature manipulations during incubation and in ovo injection of thyroxine are associated with a decreased incidence of cold-induced ascites in broiler chickens
 O. Afsarian, M. H. Shahir, A. Lourens, A. Akhlaghi, H. Lotfolahian, A. Hoseini, and N. Mousavi..... 328

PROCESSING AND PRODUCTS

- Meat quality traits and proteome profile of woody broiler breast (pectoralis major) meat
 K. Cai, W. Shao, X. Chen, Y. L. Campbell, M. N. Nair, S. P. Suman, C. M. Beach, M. C. Guyton, and M. W. Schilling..... 337
